IMPORTANT INFORMATION TO CONSIDER BEFORE INVESTING

INVESTMENT APPROACH

The Sygnia Itrix MSCI Japan Index ETF is a high risk, passively managed index tracking fund, registered as a Collective Investments Scheme, and is listed on the Johannesburg Stock Exchange as an Exchange Traded Fund. The objective is to replicate the price and yield performance of the MSCI Japan Index as closely as possible by physically holding a portfolio of securities equivalent to the basket of securities comprising the Index and in the same weightings of the Index. Index Performance data can be sourced from Bloomberg, Reuters, other data providers and at www.sygnia.co.za.

BALANCING RISK AND REWARD

The MSCI Japan Index is a free float-adjusted market capitalisation index that is designed to measure developed market equity performance in Japan, representing companies with a total market capitalisation of approximately US\$3 trillion. The MSCI Japan Index is recognised as a barometer of the Japanese economy and as a holder of the Sygnia Itrix MSCI Japan Index ETF; an investor will essentially track Japan's equity markets. The recommended investment term for investors in the Sygnia Itrix MSCI Japan Index ETF is a minimum of five years.

Collective Investment Schemes (CIS) are generally medium- to long-term investments. The value of units may go down as well as up and past performance is not necessarily an indicator of future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending.

Annualised performance figures represent the geometric average return earned by the fund over the given time period. Unannualised performance represents the total return earned by the fund over the given time period, expressed as a percentage.

Performance is calculated based on the NAV to NAV calculation of the portfolio. Individual investor performance may differ as a result of initial fees, the actual investment date and dividend withholding tax.

HOW ARE NAV PRICES CALCULATED?

Net Asset Value (NAV) prices are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any permissible deductions from the portfolio divided by the number of units in issue. The price at which ETFs trade on an Exchange may differ from the NAV price published at the close of the trading day, because of intraday price movements in the value of the constituent basket of securities.

FEES

A schedule of fees and charges is available on request from Sygnia Itrix. Permissible deductions may include management fees, brokerage, STT, auditor's fees, bank charges and trustee fees. Sygnia Itrix ETFs are Exchange Traded Funds that trade on stock exchanges and may therefore incur additional costs associated with listed securities. Sygnia Itrix does not provide advice and therefore does not charge advice fees. If a financial planner is appointed, initial and ongoing advice fees may be payable as agreed upon between you and your financial advisor. The payments of these fees are facilitated by the Linked Investment Service Provider (LISP) or Stock Broker.

WHAT IS THE TOTAL EXPENSE RATIO?

The total expense ratio (TER) is the annualised percentage of the Fund's average assets under management that has been used to pay the Fund's actual expenses over the past year. The TER includes the annual management fees that have been charged (both the fee at benchmark and any performance component charged), VAT and other expenses like audit and trustee fees. Transaction costs (including brokerage, Securities Transfer Tax [STT], STRATE and FSB Investor Protection Levy and VAT thereon) are shown separately. Transaction costs are a necessary cost in administering the Fund and impact Fund returns. They should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Since Fund returns are quoted after the deduction of these expenses, the TER and transaction costs should not be deducted again from published returns. The TER charged by any underlying fund held as part of a fund's portfolio is included in the TER figure, but trading and implementation costs incurred in managing the fund are excluded. As expenses vary, the current TER cannot be used as an indication of future TERs. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. Instead, when investing, the investment objective of the Fund should be aligned with the investor's objective and compared against the performance of the Fund. TERs should then be used to evaluate whether the Fund performance offers value for money.

FOREIGN SECURITIES

The fund invests in foreign securities, which may be exposed to macroeconomic, settlement, political, tax, reporting or illiquidity risk factors that may be different to similar investments in South African markets. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down.

DISCLAIMER

Sygnia Itrix (RF) (Pty) Ltd is a registered and approved Manager under the Collective Investment Schemes Control Act, 2002 (Act No 45 of 2002). Mellon Capital Management Company is the appointed investment manager, registered with the Securities and Exchange Commission ("SEC"). Sygnia Itrix does not provide any guarantee with respect to the capital or return of the portfolio. Nothing in this minimum disclosure document will be considered to state or imply that the collective investment scheme or portfolio is suitable for a particular type of investor. All figures used are for illustrative purposes only.

This document is for information purposes only and does not constitute or form any part of any offer to issue or sell, or any solicitation of any offer to subscribe for or purchase any particular investment. Whilst reasonable care was taken in ensuring that the information contained in this document is accurate, Sygnia Limited, or any of its affiliates do not accept any liability in respect of any damages and/or loss (whether direct or consequential) or expense of any nature which may be suffered as a result of reliance, directly or indirectly, on the information in this document. Additional information such as fund prices, brochures, application forms and a schedule of fees and charges be requested via admin@sfs.sygnia.co.za or 0860 794 642 (0860 SYGNIA).

You should be aware that certain transactions give rise to substantial risk. Product values may be affected by market values, interest rates, exchange rates, volatility, dividend yields and issuer credit ratings. The complete terms and conditions of your ETF investment are contained in the fund's offering circular, pre-listing statement, programme memorandum and/or supplemental. These documents may be obtained from www.sygnia.co.za or on request from Sygnia.

Sygnia Limited and any of its affiliates may make markets or hold units in the fund or hold positions in the investments in which the fund invests. As set out in the offering circular, the sale of securities is subject to restrictions in some jurisdictions. In particular, any direct or indirect distribution of this document into the United States, Canada or Japan, or to U.S. persons or U.S. residents, is prohibited.

INDEX DISCLAIMER

The funds or securities referred to herein are not sponsored, endorsed, or promoted by MSCI, and MSCI bears no liability with respect to any such funds or securities or any index on which such funds or securities are based. The Offering Circular pre-listing statement, programme memorandum and/or supplemental contains a more detailed description of the limited relationship MSCI has with the Sygnia Itrix and any related funds.

EXCHANGE TRADED FUNDS VS UNIT TRUSTS

Whilst both unit trusts and ETFs are regulated and registered under the Collective Investment Scheme Control Act, ETFs trade on stock exchanges just like any other listed, tradable security. Unlike a unit trust, which can be bought or sold only at the end of the trading day, an ETF can be traded intraday, during exchange trading hours.
