

SESIKILE BCI PROPERTY FUND (A)
Minimum Disclosure Document (Fund Factsheet)

FUND OBJECTIVE

The Sesfikile Boutique Collective Investments Property Fund Class A is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE All Property Index (J803) over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream but is willing to be exposed to an element of capital volatility. The portfolio may from time to time invest in listed and unlisted financial instruments.

FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts ("REITs") or listed property companies. The investment manager will also be allowed to invest in financial instruments and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research;
- While ultimate portfolio construction adheres to Sesfikile's unique "Four D" approach:
 - Our passion for direct property
 - Getting stuck in the detail
 - Understanding the broader drivers of property investment
 - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after-fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGER INFORMATION

Evan Jankelowitz, Mohamed Kalla and Naeem Tilly co-manage the Sesfikile BCI Property Fund. The Sesfikile Investment Team, which consists of five individuals, boasts combined experience of more than 70 years in the listed property sector, making them amongst the most experienced teams in the market. Since inception, the Team has been able to deliver consistent benchmark and peer relative outperformance.

MARKET REVIEW

After four consecutive strong months, listed property took a breather in March, with the All Property Index (ALPI) edging 0.58% lower. The asset class underperformed equities (ALSI: +3.2%) but fared better than bonds (ALBI: -2.02%). Bonds struggled after global bond yields rose as market participants feared that rates would stay "higher for longer" in the face of sticky inflation prints and a US economy that is showing little signs of slowing down. Meanwhile, equities were strong, driven largely by gold stocks as the gold price reached record high levels fuelled by central bank purchases and geopolitical tensions.

Shaftesbury gained 15.9%, topping the sector's best-performing stocks for March. The company recorded strong results characterised by new leases above market rentals and cost containment. Hammerson joined its UK peer as one of the better-performing stocks (+12.3%) after it, too, showed healthy operating fundamentals in its latest results. One of Hammerson's largest shareholders, Lighthouse, also paused its selling of the counter, which helped the Hammerson share price recover. Attacq advanced 11.2% on the back of good results and an announcement that it had sold its stake in MAS Real Estate, which was a non-yielding asset, and planned to redeploy the proceeds into income-generating property. Hyprop closed 6.4% lower after it raised concerns about its primary anchor tenant, Pick 'n Pay, and weakness in the Naira, which led to underperformance from its Africa business. This company postponed its semi-annual dividend and downgraded its guidance. Fears around Pick 'n Pay are exaggerated in our view, and while we acknowledge the pressure facing the supermarket division, current indications are that the strategy is to right-size a small number of stores with no rental concessions being discussed. Pick 'n Pay's supermarket business, in total, accounts for just 1.6% of revenue due to sector and geographical diversification. What must be emphasized is that this is not a business rescue event akin to that of the Edcon Group, which was seen several years prior.

We were generally encouraged by the operating metrics reported by property companies during this past results season. Most noteworthy was the improvement in office vacancy rates and continued upward momentum in retail rental reversions, including sizeable urban shopping centres owned by Hyprop. The failure of net operating income growth to translate into earnings growth is down due to the pressure from higher interest rates, this is likely to remain a feature for the next 12 months. However, with interest rates expected to trend lower in the second half of 2024, we are optimistic that earnings will accelerate thereafter.

TER AND TRANSACTION COST (INCL. VAT)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2023, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 December 2023.
